Death Register

Last Updated January 25, 2018

A NOTE FROM THE EDITOR

The information was assembled from church records using the death register to compile the information by surname. Please note the various spellings of names. Some of the older birth dates may be off by one year because the death records did not specify a year of birth, just the age of the person and a year of death.

The death records list the full name of the deceased, their year of birth and death, the name of their spouse and the name of their parents. The maiden name is used when available. The symbols mean:

c. child of

s. spouse of

w. wife of

h. husband of

Kindest Regards
